EU Directive 2015/863, published in 2015 to supplement Directive 2011/65/EU and amended Annex II, limits the use of hazardous substances in electrical and electronic equipment.

Based on information provided by our suppliers, Novotechnik confirms that any of its products are RoHS compliant for orders placed on or after the date of this certificate.

Confirmation of compliance status by our suppliers is either because the products do not contain any of the restricted substances referred to in Article 4(1) of the RoHS Directive at concentrations in excess of those permitted under the RoHS Directive or because removal of the restricted substances is not technically possible and their existence in the products at levels in excess of these concentrations is allowed as one of the particular applications listed in the Annex II, III and IV to the RoHS Directive.

Novotechnik has taken all reasonable steps to confirm suppliers' statements regarding the absence of the restricted substances and maintains a full audit of relevant documentation to support this.
